

# Large Collections of Uighur and Mongolian Literature...

...can be found at the SUB Göttingen (FID Central Asia) as well as at the Staatsbibliothek zu Berlin Preußischer Kulturbesitz (SBB PK/FID Asia).

They can be searched via the [Common Library Network \(GBV\)](#) and [the Common Union Catalogue \(GVK\)](#).

Insert certain search keys using the search slot of the Common Union Catalogue (GBV - GVK). Common search keys are spr for language, bib for library, jhr for year etc.

**Search command for SBB PK:** *bib 0001*

**Search command for SUB Göttingen:** *bib 0007*

## Combination of search commands:

### **Uighur Language Literature**

*Spr uig and bib 0007* (SUB Göttingen)

*Spr uig and bib 0001* (SBB PK)

### **Mongolian Language Literature**

*Spr mon and bib 0007* (SUB Göttingen)

*Spr mon and bib 0001* (SBB PK)

## Specify your search:

The search can be limited to specific years. If you want to search from a specific year of publication onwards, the year is followed by a hyphen:

*jhr 2009- and spr mon and bib 0007*

(Mongolian language books at the SUB Göttingen since 2009)

## Research and hits for FID specific literature in the GVK:

The FID Central Asia was founded in 2019 and accordingly literature relevant to the FID is marked with *FID Zentralasien* from 2019 on. The FID relevant literature that came into the library before 2019 can therefore not be searched using the key *FID Zentralasien*. Instead just use the language codes spr mon and spr uig etc.

The FID Asia, on the other hand, has marked all FID relevant titles – also older titles – with the key *FID Asia*.

**The search key of each FID is SSG, followed by the name of the specific FID.**

Examples:

*Spr mon and ssg Zentralasien* (all Mongolian-language titles relevant to the FID Central Asia and catalogued since 2019)

*Spr mon and ssg Asien* (all titles relevant for FID Asia in Mongolian language).
